ENGAGE

Attend our bi-annual EAC meetings and engage in opportunities.

The EAC brings employers and partners together to engage directly with young adults at MHYC through career and employment opportunities. Members gain access to a skilled workforce of young adults (18-24). The goal of the EAC is to promote strong, long-term partnerships with employers that are determined to be of mutual benefit to both parties. *MHYC EAC positions are open to all employers and are 1-year terms.*

For 30 years, MHYC has combined meaningful paid service opportunities with education and personal exploration to help young adults discover their strengths and learn to lead. MHYC offers career pathways in land conservation, energy & water conservation, construction, and healthcare.

BENEFITS

MHYC recognizes our members in various ways, including:

- Featured in e-newsletter circulated to 5,000+ community and business leaders

"In some small way, I believe my time on the Employer Advisory Council has contributed to students being better prepared for the competitive and always-evolving job market. Career readiness is a vital part of learning and skill-building. And we owe it to our young people to help them prepare for the future job market. As a member of the Employer Advisory Council, it has provided our organization with a meaningful way to give back to our community."
